

BLACK

Sophistication comes in many shades of black and James Cropper provides holds over 50 recipes for the darkest, most elusive of paper colours.

Technology, science, art and skill combine to give unrivalled choice in both ready-made and bespoke black papers, matching pigments with textures and rigorous in-house testing to ensure the desired impact is achieved. Five ready-to-order blacks are available from stock, with other blacks developed as custom projects.

CHARACTERISTICS

- Bowston - made from 100% recovered fibre for applications ranging from photo albums to security envelopes
- Vanguard - a graphic printing board made from 60% reclaimed coffee cup fibres.
Ideal for business stationery and promotional print
- Natural - a non-carbon paper made from pure fibre, perfect for luxury packaging. Obsidian is certified for food contact
- Comet - a unique two-sided pearlescent paper with a shimmering surface suited to graphic and structural design
- Mirror - a high-gloss mirror effect film laminate, often used in promotional print and packaging
