COFFEE

Billions of single-use coffee cups used and thrown away each year were at a recycling dead end until James Cropper developed ways of giving them a second chance. The result is a world first coffee cup recycling plant opened by HM The Queen in 2013 and, now, a range of fine papers.

Six coffee-themed colours contain not only 50% reclaimed cup fibres, but the essence of environmentally conscious paper making.

CHARACTERISTICS

- Award-winning production methods that prevent paper materials going to landfill
- Contains 50% RCF
- Providing practicality and finesse for a range of applications
- Coffee themed range of colours - Latte, Cappuccino, Caramel, Hazelnut, Mocha, Espresso
